### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1,8 and 21 is the inclusion of the limitations of

"A fuel vaporization unit that generates vapor fuel, the fuel vaporization unit including a movable agitator member, the fuel vaporization unit having a liquid fuel inlet in communication with the liquid fuel outlet of the fuel tank, a fuel vapor inlet in communication with the carbon canister, and the vapor outlet in communication with the engine intake manifold" in claim 1;

"A fuel vaporization unit of a vapor fuel generation and management system for evaporative fuel vapor engine, comprising: a vapor fuel outlet port in the housing proximate to the upper portion; an agitator member at least partially disposed in the lower portion; and a motive force device that drives the agitator member" in claim 8; and

"A method of generating vapor fuel in a fuel vaporization unit for an evaporative fuel vapor engine, the fuel vaporization unit including a housing having a wall defining a chamber, the housing chamber having a lower portion and an upper portion, comprising: moving an agitator member in the liquid fuel bath with a motive force device; forming vapor fuel in the upper portion of the chamber; and flowing the vapor fuel out of the chamber through an outlet port in the housing wall proximate the upper portion" in claim 21 that the prior art of record neither taught nor suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
